

Privacy policy

WattEV2Buy has created this privacy statement in order to demonstrate our firm commitment to privacy.

In this policy we explain how we handle information about you that we gather, store and use. For additional information about your relationship with WattEV2Buy, please review our [Terms and Conditions](#).

Other terms that have capital letters in this Privacy Policy but aren't defined here carry the same meaning as in the [Terms and Conditions](#).

1. Use of your information

- a WattEV2Buy does sell or rent information related to choice of vehicles to third parties. Personal Information is information about an identifiable individual.
- b WattEV2Buy collects information about you through your use of the Services and the Website, including your registration details and information relating to your use of the Website and the Services, such as the content you access (like listings you have viewed and the search queries you input).
- c WattEV2Buy uses the information we collect to help us provide the Services to you, to verify your identity, to enforce or apply our terms and conditions, to protect the rights, property, or safety of WattEV2Buy, our users, or others, for internal research purposes, for promoting and marketing other WattEV2Buy products and Services to you, and for any other use that you authorise.
- d We release Personal Information only when we believe release is appropriate for legal compliance and law enforcement (including to government agencies with statutory law enforcement responsibilities); to facilitate court proceedings; enforce or apply our [terms and conditions](#); or protect the rights, property, or safety of WattEV2Buy, our users, or others.
- e If we have reason to believe that you have used another person's payment card or payment details without their permission or knowledge, we may disclose your information relating to the transaction to that person or their bank.
- f You can contact WattEV2Buy to ask whether your information has

been provided, or with any other privacy-related question. Just [email us](#).

- g Where WattEV2Buy uses third parties to undertake services, we may provide those third parties with some of your information if it is required to fulfil those services. We also use third party software (such as customer relationship management, marketing automation and accounting software) that holds your information, sometimes overseas. We require any third party to undertake strict precautions to protect your information against unauthorised use or disclosure.
- h If you wish to take Disputes Tribunal (or other) proceedings against another member, you can contact WattEV2Buy for a statutory declaration form which must be completed before we will consider releasing anyone else's information to you. You may only request contact details for the sole purpose of making a claim.

2. Listing content

- a When you create a listing, we make certain information publicly available (for example, the listing description, images, your e-mail. We refer to this broadly as listing content. Listing content varies depending on the type of listing, and the category. This section of the policy explains what we and others do with listing content.
- b Listing content becomes public when you publish it using our Service. Once you publish it, listing content becomes available via the internet, including to users of our API. Listing content may appear in applications and on other websites. Users of our API must agree to our API terms and conditions.
- c We retain all listing content after listings have expired. Listing content may also persist elsewhere when third parties access and cache listings while they are live. For example, Google do this when they index the web for searching and so old listings may survive in Google searches for a period of time.
- d In certain cases we have commercial arrangements with third parties to display or use listing content. We also use some listing content to enrich our Services.

3. Email

- a It is the policy of WattEV2Buy to send our members emails in

addition to customary business communications (payment confirmations, etc.). Further, it is our policy to immediately remove any member from any mailing list upon the member's request. In addition, WattEV2Buy will send newsletters and other communications to members. Newsletters will contain clear and obvious instructions for how the member can remove himself or herself from that mailing list.

b We do use email as a means of receiving feedback from our members, and we encourage you to [email us](#) with your questions or comments.

4. Membership registration

a Our site's registration form requires you to provide us contact information and may also require demographic information. We may use your contact information from the registration form to send you information about our company and promotional material from some of our affiliated partners. Your contact information is also used to contact you when necessary.

5. Managing your Personal Information

a The Privacy Act gives you the right to access and correct your information. Use the Edit functionality if you wish to access or update your Personal Information, including changing your email address, password, phone number, etc. When you update your details WattEV2Buy will store your old details to ensure compliance with our [Terms and Conditions](#) - specifically the use of one account per member.

b If you wish to close your account and delete any Personal Information you have submitted to us, please contact us at privacy@wattEV2buy.com to make that request. We consider each request for deletion on a case by case basis taking into account our legal obligations to retain certain information.

6. Credit and debit card security

a We work diligently to protect the security of your information, including credit and debit card information.

b We protect your credit and debit card information during transmission by using the Secure Sockets Layer (SSL) protocol, which encrypts your information when transmitted over the Internet. WattEV2Buy retains only partial card details. However your details may be held by [PayPal](#).

7. API

- a WattEV2Buy provides an application programming interface (API) to enable software to interface with the Website. The API enables developers to build new applications for our members to use. We use it ourselves to power our mobile applications. As a result, information you publish on WattEV2Buy may be accessed through the API and may appear in other places such as applications or websites. We may charge third parties in various ways for access to our API.
- b Some applications enable you to interact with WattEV2Buy through the API in a way that requires you to log in. To do this, most of these applications will direct you through a secure process on WattEV2Buy called 'OAuth', where you are able to let the application connect to your account. A smaller set of applications will require you to enter your username and password directly into the application, and only applications specifically authorised by WattEV2Buy are capable of doing this. In no case will anyone be able to retrieve your password from the API.
- c If you allow an application to connect to your WattEV2Buy account, that application will be able to access information that you can see when you are logged in to WattEV2Buy. This includes the information found within My WattEV2Buy, such as your watch list, advertised vehicles or personal contact information. You should only allow applications you trust to access your WattEV2Buy account.
- d If someone is using an application to access WattEV2Buy and trades with you, that application may be able to access information that you provide to the other person during the trading process, such as your email and delivery address.
- e Anyone using our API must comply with WattEV2Buy's [API terms and conditions](#) and this [Privacy Policy](#).

8. Cookies and local storage

- a WattEV2Buy uses various technologies, including cookies and local storage, to collect and store information about you when you visit WattEV2Buy.
- b Cookies and local storage allow us to store information (including your Personal Information) in a file on the device you use to

access WattEV2Buy. We use cookies and local storage to deliver information and fresh content specific to your interests and to improve the experience of using WattEV2Buy. Cookies and local storage are widely used.

- c WattEV2Buy uses "session" cookies to temporarily store information to help you use WattEV2Buy. This information is used to deliver the right content to you as you use WattEV2Buy and avoids unnecessarily asking you to log in. Session cookies expire immediately when you close your browser or are deleted after 30 minutes of no activity on WattEV2Buy.
- d WattEV2Buy also uses "persistent" cookies and local storage to personalise the user experience, to help protect our members and to provide us with research information (such as how often members visit WattEV2Buy each month). Persistent cookies allow us to track users on WattEV2Buy and helps us identify users abusing the WattEV2Buy service. A persistent auto-login cookie is also stored when you select the "remember me" option when logging in. The auto-login cookie is removed if you log out.
- e WattEV2Buy participates in Google's AdSense pay-per-click advertising programme. AdSense advertisements appear on Google's search result pages and on the Google Display Network. WattEV2Buy ads may also appear on other websites in the Google Display Network. Google uses cookies to target ads to you, including to measure the number of Google users that click on certain advertisements and visit certain WattEV2Buy pages, or who complete certain actions on WattEV2Buy (like adding an item to a Watchlist).
- f Google provides this data to WattEV2Buy without identifying users. [View Google's privacy policy.](#)
- g WattEV2Buy uses Google remarketing to serve relevant ads to you after you leave our website. When you navigate around our website, and/or exhibit certain behaviours such as making purchases, creating listings or adding items to your Watchlist, we either use Google to place a cookie on your browser, or we update the existing Google Analytics cookie. This enables us to remarket to you using technology such as the Google Display Network, or DoubleClick (or its successors), and means that

you may see ads from WattEV2Buy when you later visit other websites.

- h You can opt out of Google's, and our, use of these cookies by visiting Google's [Ads Preferences Manager](#). [View Google's advertising privacy policies](#).
- i We also allow some of our advertising clients to place remarketing cookies on your browser when you view their advertisements on WattEV2Buy. This allows them to continue to show you their advertisements when you visit other sites they advertise on, or to cap the frequency with which you see their advertisements.

9. Advertising and third party links

- a Products and services advertised on WattEV2Buy are not endorsed by WattEV2Buy.
- b Some WattEV2Buy advertisers may request information directly from you, or link to sites that do so. WattEV2Buy has no control over its advertisers' privacy policies, and you should review such policies prior to submitting any information to them.
- c WattEV2Buy contains non-advertising links to a variety of third party sites to enhance the member experience. WattEV2Buy has no control of either the content or privacy policies of such sites, nor should such links be considered an endorsement of these sites except where otherwise noted.
- d In some cases, third party advertisers may also use cookies in certain advertisements that appear on the website for advertising purposes, or collect information in the course of advertising being served. For example, WattEV2Buy participates in Google AdSense advertising, and as part of this, Google may use cookies in order to reduce the number of times you see the same ad.
- e WattEV2Buy also uses information we hold about you to deliver display advertisements intended to be relevant to your interests, based on the information you have provided to us through the use of any of our Services. This information is not personal information, and may be shared securely with third parties to deliver display advertisements to you.

10. EXIF data in photos

a Photos often contain EXIF data. EXIF data may include location information, such as when and where each photo was taken, and details of the device used to take it. If you upload photos that include EXIF data to WattEV2Buy, we will store this information and use it to better understand the use of photos on our site and to help us provide a safe marketplace. Your device may allow you to opt out of providing location information.

11. Other information we collect

a We use additional information to do internal research on our users' demographics, interests, and behaviour to better understand and serve you and our community. This information may include the URL that you just came from (whether this URL is on our site or not), which URL you next go to (whether this URL is on our site or not), what device, operating system and browser you are using, and your IP address. We may also use information from third parties, such as geo-demographic information.

b WattEV2Buy uses information we hold about you to provide you with a more personalised experience, such as suggesting things you might like, and suggesting search terms to you based on your recent searches. You can disable previous search terms from appearing by clicking on the "settings" icon in the search box.

c Users who log in have their IP addresses recorded. This information will only be provided to legal authorities in cases of suspected fraud or for law enforcement purposes. This information is stored securely and will not be provided to other members or non-authorized parties.

d If you choose to post messages in our message areas or leave feedback for other users, we will collect that information you provide to us.

e If you send us personal correspondence, such as emails or letters, or if other users or third parties send us correspondence about your activities or postings on the Site, we may collect such information into a file specific to you.

f Customer service phone conversations may be recorded for

internal training and quality assurance purposes. This helps us ensure the information we provide members is consistent and accurate. Phone records will be stored securely and will generally be retained for up to six months.

g When third parties supply us with information in line with their terms and conditions, we may use this information to serve you with more relevant advertising content. We may also collect publicly available information about you, such as for fraud prevention purposes.

h WattEV2Buy has authorisation to access name and address details registered in respect of a vehicle on the Motor Vehicle Register.

12. Membership removal

a If you wish to have your registration removed from our directory for any reason, you may send us an email requesting this.

13. Internet statistics and analytics

a WattEV2Buy uses Google Analytics to better understand the behaviour of visitors to our website, and to improve our website. For example, it helps us to identify how many users visit a particular page, and how many take a further step, such as bidding. We have opted out of Google Analytics' data sharing settings. For more information, [view Google Analytics' information on safeguarding your data](#).

b WattEV2Buy uses Google Analytics Demographics and Interest reporting to give us insight into users behaviour, and to serve you with more relevant content. Information we collect through this reporting service is in aggregate form, and anonymous. You can opt out of Google Analytics Display Advertiser Features [here](#).

14. Updates to our information practices

a From time to time, we make changes to our information practices or alter the functionality of our website. Occasionally urgent changes will be required, but we will generally give you at least 2 weeks' notice to review any changes. From time to time, we may seek your feedback on proposed changes, for significant changes notify you directly via email. We always update this statement accordingly, so we encourage you to periodically review this page for the latest information on privacy practices

at WattEV2Buy.

If you have any questions about our privacy policies or any other matter, please [contact us](#).
